### ABOUT COMMUNITY BRIDGES

Community Bridges empowers girls from diverse backgrounds to become exceptional students, positive leaders, and healthy young women. We do so by addressing the developmental needs of immigrant and minority girls and their families living at or below the federal poverty level in Montgomery County, Maryland. Our integrated 4th through 12th grade after- and out-of-school Girls Program supports the growth of our young women by helping them understand their potential and life choices, learn creative strategies to become leaders, and break their family's cycle of poverty using education as a vehicle. We further extend the impact for CB girls by wrapping their own efforts with mentoring, college and career planning and programs to provide resources and support for their families.

### "GIRL LEGACY"

Girl Legacy is an evening of celebrating 20 years of, "Creating Opportunities, Cultivating Potential and Achieving Dreams." Our girls have designed an evening full of great food, performances, dancing, virtual reality and an opportunity to meet our amazing girls and alumni. Every dollar raised at the celebration will support the Community Bridges program and allow us to serve more girls in grades 4-12 in Montgomery County. Please join us and help change the lives of girls in your community.

"I originally joined Community Bridges because of a recommendation from my counselor. I've always wanted to join an after school program but never found the right fit. Staying in CB was an easy decision. This program welcomed me into a new school with all new people. CB is a safe environment where no matter what background you have we are all united. We laugh, learn and grow together.

**CB is the reason why I continuously push for my dreams and goals no matter the obstacle.**"

**EMILY GARCIA**, SENIOR SPRINGBROOK HIGH SCHOOL
